 Carl has been involved in Computing, Aviation, Acoustics and Automotive projects since the 70s and his company Holden Dynamics Pty Ltd based in Sydney, provides Strategic internet project management and leading edge web services utilising open source solutions.

He also mentors start-ups and consults with established organisations and businesses wishing to enhance their online performance, search engine rankings, online sales and customer engagement strategies.

Previously, Carl has been instrumental in the introduction of new technologies to Personal Communications and Aviation and sees the Open Source Technologies business model as the way forward, particularly as we move to adopt the National Broadband Network, which will open the way for many new opportunities for business, consumers and the Open Government Agenda.

Carl is a member of:

- [Aviation Law Association of Australian & New Zealand](http://www.alaanz.org/) (ALAANZ)
- [Flight Safety Foundation](http://www.flightsafety.org/) (International Air Safety organisation)
