Sarnoff's Vision

We share in and are living the vision predicted by (General) David Sarnoff in 1964.

| Sarnoff is the man who first picked up the Titanic distress messages in the USA, later formed RCA. During World War 2 he organised the Communications for the Allied D-Day Invasion. He was a prolific innovator).

"The computer will become the hub of a vast network of remote data stations and information banks feeding into the machine at a transmission rate of a billion or more bits of information a second.

->cond.

->cond.->co which it will be transmitted.

br/>Eventually, a global communications network handling voice, data and facsimile will instantly link man to machine--or machine to machine--by land, air, underwater, and space circuits.

| The computer | will affect man's ways of thinking, his means of education, his relationship to his physical and social environment, and it will alter his ways of living...
| /> [Before the end of the century, these forces] will coalesce into what unquestionably will become the greatest adventure of the human mind."
--from David Sarnoff, by Eugene Lyons, 1966.
