

Holden Dynamics, Strategic Project Management, IT Project Management, Sydney Project Management

Holden Dynamics Pty Ltd's Principal, Mr Carl Holden, has been deeply involved with managing projects for over 40 years.

"To mastermind a project, from its earliest beginnings, dealing with sometimes substantive issues that leave others scratching their heads, finding solutions (usually thinking outside the square) and take it right through to a successful implementation, is a real buzz" says Carl.

Areas of expertise include:

Strategic Project Management

IT Project Management

Aviation Project Management

Automotive Project Management

Media Project Management

Government Relations Project Management

Litigation Project Management

Personnel Project Management

New Business Start-Up Project Management

Marketing Project Management

Electro-Acoustic Project Management

Electronics Manufacturing Project Management

.... and more

Whether its managing the R&D and implementation of a new Community Engagement or e-Commerce Web Portal, setting up a new IT system, managing the R&D and manufacturing project for Aircraft Electronics certification or project managing the development and implementation of a new Training system, we can help !

Our Internet IT Strategic Project Management skills have been honed over many years of work.

Strategic Project Management Papers:

Our thinking and methodology is best illustrated in a paper (2005) by Professor Sebastian Green

Head of Management and Marketing, University College Cork Ireland.
